

Acteflon specialists in PTFE

Item: **Acteflon- Coated fabrics PTFE tapes**

Product Name: **Coated fabrics PTFE tapes**

Coated fabrics PTFE tapes (PTFE silicone adhesive tapes)

impregnated with virgin PTFE. Coated fabrics PTFE tapes (PTFE silicone adhesive tapes) can provides a high temperature release surface for

protection and insulation. Coated fabrics PTFE tapes (PTFE silicone

adhesive tapes) have a good heat-resistance. Coated fabrics PTFE tapes (PTFE silicone adhesive tapes)

have been formulated for continuous use up to +260°C. Coated fabrics PTFE tapes (PTFE silicone adhesive tapes) reinforcement provided by the woven glass cloth adds tensile strength and tears resistance.

Features:

Coated fabrics PTFE tapes (PTFE silicone adhesive tapes) provide good characteristics of PTFE, such as electrical characteristics, heat resistance, chemical resistance, low friction coefficient and non-adhesiveness.

Flame resistance. Make by insulating material.

Can smoothly adhere, wind, band and seal.

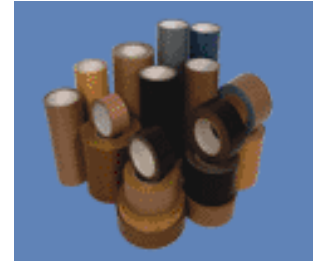

Applications:

Coated fabrics PTFE tapes(PTFE silicone adhesive tapes) can used for heat-resistant masking, heat-sealing, heat-resistant electrical insulation.

Specifications:

Type	Thickness(mm)	With(mm)	Length(M/Roll)	Color
ATC013	0.13	10~1000	10~50	Beige/Fulvous/Black
ATC018	0.18	10~1000	10~50	Beige/Fulvous/Black
ATC020	0.20	10~1000	10~50	Beige/Fulvous/Black
ATC025	0.25	10~1000	10~50	Beige/Fulvous/Black

※ Special requirement please contact **Acteflon**.

Coated fabrics PTFE tapes

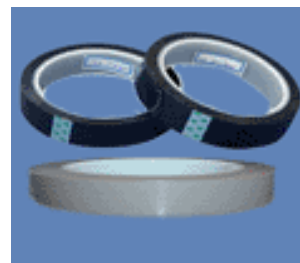

Acteflon specialists in PTFE

Item: **Acteflon- PTFE films adhesive tapes**

Product Name: **PTFE films adhesive tapes**

PTFE films adhesive tapes (PTFE silicone adhesive tapes):

PTFE films adhesive tapes (PTFE silicone adhesive tapes) made by virgin PTFE films. We adopt special fine and high precision of technology to skive and get the high quality PTFE films as the base of

PTFE films adhesive tapes

adhesive tapes, after special surface treatment, coating a silicone press sensitive stickness on the surface and making PTFE films adhesive tapes (PTFE silicone adhesive tapes) with mount or coil weave.

PTFE films adhesive tapes (PTFE silicone adhesive tapes) are widely applied in the conduct roll for resistance of high temperature, acid, alkali and non-stain of the surface, protecting with the low friction of heating up flat, pulling off of the plastic model, joining and binding up cable of high temperature and high-pressure with anti-static, protecting with the electrical component's jointing in high temperature, affixing of the hot plastic parts. PTFE films adhesive tapes (PTFE silicone adhesive tapes) can be used conveniently, long-lived and have good insulation. PTFE films adhesive tapes (PTFE silicone adhesive tapes) can be well used in the temperature range of $-60\text{ }^{\circ}\text{C} \sim +260\text{ }^{\circ}\text{C}$.

Specifications:

Type	Thickness(mm)	Fabric Thickness(mm)	With(mm)	Length(M/Roll)	Color
ATF013	0.13	0.05	10~1000	10~50	Gray
ATF018	0.18	0.08	10~1000	10~50	Gray
ATF020	0.20	0.12	10~1000	10~50	Gray
ATF025	0.25	0.15	10~1000	10~50	Gray
