Item: **Acteflon Liner - PTFE Oven Liner**

Product Name: **PTFE Oven Liner**

Index of Acteflon **PTFE Oven Liner**:

Acteflon Liner - PTFE Oven Liner

Acteflon PTFE oven liner is a high temperature resistant non-stick liner that can easily be cut with house hold scissors to allow it to perfectly fit your oven. Acteflon PTFE oven liner can be put on the bottom or on the bottom of the grid. Steam Oven-drying on the bottom shelves, not directly on the bottom up.

Acteflon PTFE oven liner is also used to line the bottom of a grill pan and is great for allowing the easy cleaning after those snack time favorites such as cheese on toast.

Acteflon PTFE oven liner has a coating of PTFE that provides it with its incredible non-stick surface, so it can be easily cleaned and wiped of any food spills that occur when cooking. The thick PTFE coats both sides of the material, therefore the liner can easily be turned over, further extending the life of the liner.

Acteflon PTFE oven liner can be cleaned with any chemical household cleaners and won't degrade the surface or break it down.

Acteflon can offer the thickness from 0.08 up to 1mm; max width can reach 4000mm, color is brown, black and silver liner, custom size also available.
